STEPHANIE PELTZ
NATUROPATHIC DOCTOR

As a naturopathic physician my treatments involve gentle, typically non-invasive techniques to stimulate the body's inherent healing capacity. As your naturopathic doctor I will take a thorough case history, may do a relevant screening physical examination, and if required evaluate blood, urine, saliva, or stool samples. It is important that you inform me of any change in your health status while under my care, as this may necessitate changes to your naturopathic treatment plan such as any new disease process or diagnosis, if you are prescribed a new medication or over the counter drug, or if you become pregnant or are breastfeeding. There are some slight health risks to treatment by naturopathic medicine.

These include but are not limited to:

- Aggravation of pre-existing symptoms.
- Allergic reactions to supplements, herbs or intravenous therapy contents.
- Pain, bruising and injury from venipuncture or acupuncture.
- Dizziness, lightheadedness or nausea from IV therapy and acupuncture.

I understand that a confidential health record will be kept of the health services provided to me. This record will not be released to others unless so directed by myself or required by law. If appropriate (and with my explicit consent) I understand that you, as my naturopathic doctor, may discuss my case with other healthcare providers. I understand that the results are not guaranteed. I do not expect the doctor to be able to anticipate and explain all risks and complications.

Cancellation policy - I understand that if I fail to appear for my scheduled appointment or cancel with less than 24 hours notice (one business day) I will be charged a Missed Appointment Fee of the full cost of my missed visit.

I understand that opened remedies and lab tests prescribed are non-refundable.

I hereby consent to receive Dr. Stephanie Peltz's quarterly email newsletter which contains information about clinic events, health conditions, current health news, and healthy recipes
